OUR STRATEGIC PRODUCT DEVELOPMENT PROCESS

1

STRATEGY FIRST

We begin with understanding your business goals and market opportunity to ensure technology decisions support your vision

2

DISCOVERY & PLANNING

Through collaborative workshops, we define product requirements, user journeys, and technical architecture.

3

AGILE EXECUTION

Our iterative development process delivers features in sprints, with continuous testing and refinement.

4

LAUNCH & SCALE

We handle deployment, optimization, and ongoing support to ensure your product thrives in the market

ABOUT THE FOUNDER

Kaushik Dey is a results-driven Data Science & Digital Transformation Expert with a strong track record of helping businesses, students, and professionals unlock growth through technology, analytics, and automation.

With advanced qualifications in Cloud Computing & DevOps from **IIT Roorkee** and Data Science & Business Innovation from **IIM Nagpur**, he brings a rare blend of technical expertise and business strategy.

As the founder of **Edu Creative Digication**, his mission is to bridge the gap between education and real-world industry skills, empowering individuals and organizations to thrive in the digital era.

WHAT SETS HIM APART

- Business-Focused Technology Expert Transforms complex technical solutions into measurable business outcomes.
- Corporate Training Specialist Delivered impactful training programs for students, professionals, and organizations.
- Strategic Consultant Helps businesses scale using data-driven decision-making and automation.
- End-to-End Solution Architect From idea to execution — builds scalable, future-ready systems.

Transforming Ideas into
Scalable Digital Solutions
